

MULTI ACTION

FABRIC PRETREATER AND STAIN REMOVER FOR MAKE-UP AND INK STAINS

- Suitable in the pre- and post- stain removal phases
- Suitable to be used both in professional and industrial laundries
- Optimized to be used with the Oxipur system products in order to decrease the rewashings

Fabric pretreater and stain remover for tough coloured stains such as make-up, adhesives, ink and lipstick, etc. Can be used on most fabrics made of cotton, polyester, cotton/polyester, wool, silk and viscose. Ideal for removing stains that cannot normally be removed through mechanical washing, in order to decrease the rewashings.

HOW TO USE

Apply the product directly onto the stain. Let it work for 5-10 minutes, then wash with the cycle suitable for the type of fabric. In the case of particularly tough stains, repeat the operation and rub with a brush.

MULTI ACTION

DILUTION

Ready to use.
